EDUCATION

Illinois State University | School of Information Technology Normal, Illinois
B.S., Computer Networking & Telecommunications Management Expected May 2027
GPA: 3.54 | 100 credit hours completed by May 2026
Relevant Coursework: Wide Area Networking, Practical Telecom Networking, Network Design & Analysis, Wireless Communication Systems, Database Processing, Information Assurance & Security, Hardware & Software Concepts

WORK EXPERIENCE

Illinois State University - Office of Technology Solutions Normal, Illinois
Endpoint Support Lead Technician January 2024 - Present

- Primary escalation point for the Endpoint Support team, resolving hardware, software, and identity management campus wide; deliver in-person and remote support via ScreenConnect with all incidents documented in ServiceNow per knowledge management practices.
- Administer university endpoints via SCCM, Intune, and Jamf Pro; manage Active Directory OUs, GPOs, and security groups; automate user provisioning and access management using custom PowerShell scripts.
- Provide dedicated technology support for high-profile university stakeholders including the Board of Trustees and campus VIPs in coordination with the Executive Support team.
- Mentor a team of 15+ student technicians in troubleshooting, ticket workflows, and customer service; liaise between technical staff and leadership to translate department goals into actionable specifications.
- Assist with university-wide hardware lifecycle management including property control, diagnostics, and responsible disposal; support maintenance of campus print stations as needed.

Womack Technologies Springfield, Illinois
Network & Telecommunication Specialist November 2024 - August 2025

- Deployed and managed Ubiquiti UniFi infrastructure for a range of clients; designed point-to-point wireless links and buried Ethernet for multi-building campsite connectivity and large-area guest/vendor Wi-Fi at fairground venues.
- Set up Windows Server environments including Active Directory and Group Policy; co-deployed WDS to image and domain-join 60+ laptops via SonicWall SSL VPN.
- Partnered with i3 Broadband on VoIP installs (Yealink + Vodia PBX); configured multi-display conference rooms with mixed-input AV; installed IP cameras and POS systems for retail and restaurant clients.
- Led and assisted in writing project quotes and bids for client engagements; coordinated with vendors and ISPs to resolve service issues and source solutions.

Eithinc Systems Inc. Springfield, Illinois
Technology Specialist June 2021 - August 2024

- Deployed LAN infrastructure including servers, switches, firewalls, and access points; administered Windows Server, Active Directory, and Exchange Online for business clients.
- Performed hardware and software troubleshooting and repair on Windows and macOS workstations across business and residential environments.

TECHNICAL PROJECTS

NACURH National Conference - Co-Technology Chair

May 2025

- Partnered with Campus IT and the Classroom Support team to provide technology and AV support for a national conference hosted at Illinois State University; provisioned secure logon IDs, managed classroom support, and built and maintained the conference website and attendee resource portal.

Home Lab - Virtualization & Automation

Personal | Ongoing

- Runs Proxmox VE to host multiple services including file storage, media sharing, and status monitoring; UniFi multi-VLAN network segmented across five zones (Main, HomeLab, Guest, IoT, Isolated); self-hosted Docker services and Home Assistant automation on Raspberry Pi.

TECHNICAL SKILLS

Endpoint Management: SCCM (OS deployment, imaging, software packaging), Microsoft Intune, Jamf Pro (macOS/iOS MDM), Group Policy (GPO), WDS

Identity & Directory: Active Directory (OUs, users, groups, GPOs), Microsoft Entra ID / Azure AD, Exchange Online, Print Management

Microsoft 365: SharePoint, Teams, Exchange Online, Shared Mailboxes, Distribution Lists, Licensing

Remote & ITSM: ScreenConnect, RDP, ServiceNow (Yokohama), Zoho ServiceDesk+, Atlassian Confluence, knowledge base authoring

Networking: Ubiquiti UniFi (switching, wireless, UCG), VLAN segmentation, SD-WAN (Site Magic), point-to-point wireless, VPN, SonicWall, Vodia PBX, structured cabling

Servers & Virtualization: Windows Server 2019-2025, Hyper-V, Proxmox VE, Docker, networked printers

Operating Systems: Windows 10/11 (advanced), macOS (proficient), iOS, Ubuntu/Linux

Scripting & Development: PowerShell (AD & endpoint automation), Python, HTML/CSS, Cloudflare Workers, GitHub

VOLUNTEER EXPERIENCE & ACTIVITIES

Blessed Sacrament Parish - Volunteer Multimedia Director

March 2020 - December 2022

- Fundraised \$11,500 and installed a permanent networked live-streaming system (NDI robotic cameras & production workstation) as Eagle Scout project; built a temporary streaming solution during COVID-19 and trained volunteers on the new system.

Illinek Lodge #132, Order of the Arrow - Lodge Secretary

October 2020 - August 2023

- Maintained member database, led mass communications, managed event registration systems, and produced detailed meeting documentation for a regional Scouting chapter.

Sangamon CEO / iVenturED - Student Entrepreneur

August 2022 - May 2023

- Dual-credit college business program; founded Story Byte and advanced as a finalist in the "CEO vs. Sharks" startup pitch competition; integrated payment and asset tracking systems for the LRS Ice Rink class business.
